Foreword

Town and School District Profiles, 1987-88, is the tenth annual edition of this publication. It contains a concise presentation of statistics about Connecticut's educational system drawn from major state and federal sources, clearly arranged for each town and school district. A companion publication, *Meeting the Challenge, 1986*, reports on the overall condition of education in Connecticut and on progress on related policy initiatives.

At this time there is significant public discussion about indicators of the condition and quality of education. The data presented here include input measures, such as staffing, spending and community characteristics; and outcome measures, such as graduate data and mastery test scores. Judicious use of these measures can provide meaningful insights into educational offerings statewide.

In recent years demand for this publication has exceeded available supplies. This indicates a broad interest in data about our school systems. The State Department of Education is committed to supplying accurate information about the state's public schools to all interested parties. We hope that quality information will help all of us find new ways to improve the education of all Connecticut's children.

Fiscal and Other Support Services	The sum of district expenditures for fiscal, business and central office services. The per pupil amount is based on the total number of students in the district.
Transportation	The sum of district expenditures for all pupil and other transportation. The per pupil amount is based on the number of students reported as receiving transportation to public and nonpublic schools at the expense of the local public school district.
Food Services and Student Activities	The sum of district expenditures for food services and student activities. This sum represents net food services expenditures plus net student activities expenditures (i.e., total expenditures less sales revenues). Where sales revenues meet or exceed expenditures, net food services expenditures may be reported as zero.
Operation and Maintenance of Plant	The sum of district expenditures for the operation and maintenance of school buildings and property. The per pupil amount is based on the total number of pupils in the district.
Tuition Payments to Other Districts	The sum of district expenditures for tuition for resident students educated outside the school district. The per pupil amount is based on the number of resident students for whom tuition is paid.
Land, Buildings and Debt Services	The sum of district expenditures for the acquisition of land and buildings and for paying of the principal and interest on school bonds. The per pupil amount is based on the total number of students in the district.
